About Us

We bring you today, tomorrow's products in the consumer electronics & backpack sector because yes, we do want to make your life easier!

We are conscious for our environment like all of you are and decided to do our little part by creating green products for all you eco conscious consumers out there.

In 2019 we launched our green line where all our products are 100% degradable, 100% recyclable and super friendly to our environment!

Green Line

The EcoCharger

Colour Availability:

EcoCharger is a biodegradable mini charger. Its shell is made out of wheat straw which takes about 4 months to degrade in the environment unlike plastic that takes around 400 years.

EcoCharger has 1000mAh capacity and can be recharged. It is super small and light. It is the perfect eco buddy to have with you at all times!

The EcoCase

Colour Availability:

EcoCase is a biodegradable case for your iPhone. It is made out of wheat straw making it super friendly to the environment since it can degrade by itself in the environment unlike plastic.

It has a unique flexible texture and a drop-resistant four corners design to help protect your phone as well as the earth. Another important feature is that EcoCase leaves 0.5mm space above your phone's camera and 1.0mm space above your screen thus making it super drop and scratch resistant.

The EcoCasey

Colour Availability:

EcoCasey is an all green case for your AirPods. What totally differentiates it from the rest in the market is that it is completely made out of wheat straw thus making it 100% degradable to the environment. Its texture is completely matte which also makes it anti slippery.

EcoCasey is eco friendly, antishock, portable & durable.

The MoTeck

Colour Availability:

MoTeck is the modern tech backpack for travellers, business people, college students. It is brand new, state of the art backpack which has a USB charger for your phone and any other electronic device. It has an anti-theft mechanism and is water resistant. It has hidden pockets for your cards and perfectly fits your laptop, tablets and any other electronic device. Its has a softback which makes it oh so comfortable when wearing it!

The Wi-Station

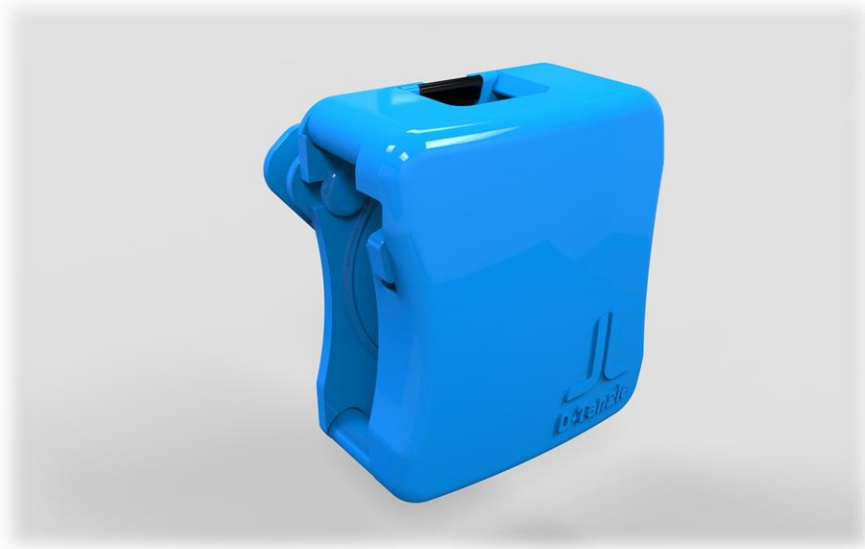

Colour Availability:

Wi-Station has a sleek ,minimal & aluminium design. It can fast charge every phone that supports wireless charging in minutes. Most wireless chargers in the market have a 5W transmit power whereas Wi-Station has a 10W transmit power. Samsung S8 and Note 8 need at least 10Watt to fully charge whereas iPhone 8, iPhone 8 Plus & iPhone X need at least 7.5 Watt.

Wi-Station can fully fast charge all these brands and many more

The D-Tangle

Colour Availability:

D-Tangle is a cord winder for earphones. It can accommodate any brand of earphone up to 1200mm length and 3 mm thickness. It is highly customizable and comes in multicolour.

D-Tangle will get rid of your tangling earphone problems for ever!

The D-Tangle Plus

Colour Availability:

D-Tangle Plus is a cord winder for bigger cables like USB's or chargers. It can automatically retract cables up to 150cm length and 5mm thickness. It is highly customizable and comes in 2 different colours.

D-Tangle Plus & D-Tangle make the ultimate cord management system!

The Chee

Chee is a brand new lightweight, portable & smart wireless power bank. It has a 10000mAh fast charging capacity and a LED digital display screen that shows when the device is fully charged. It has 2 USB ports that allow to fast charge 3 smartphones at the same time! Chee is highly compatible with iPhone X, iPhone 8, iPhone 8 Plus, Galaxy Note 5, S6, S6 Edge, S7, S7 Edge, S8, S8 plus, and all the qi enabled devices.

The Oisle

Colour Availability:

Oisle is a state of the art, ultra thin battery case for your phone. It is compatible with iPhone and Android phones and can charge up to 4500mAh. Oisle can more than double your phone's power capability with adding only 9mm thickness and 75gram weight to your phone. What's more, with it attaching it to your phone, the grip feels so much better!

Lets help our Earth in any way possible.
